

**Moving Veterans From the
Cycle of Despair to the
Circle of Care.**

“Enphront is a unique environment in which to provide for the needs of Veterans. To meet the physical, emotional and other needs (through the provision of shelter, food, counseling, referral, and employment in a structured environment) of our homeless Veterans who served our country when called upon who are seeking to transition

**Enphront
Veterans
Services**

We serve those who served us.

Enphront Veteran's Focus

Enphront's main focus is on the individual veteran. Each veteran will receive a wide variety of services during their stay at our facility. Their health and wellness will be taken care of through our partnership with the VA. AA and NA meetings will be available to those veterans that desire them.

Life skills classes will be offered, as well as nutritional counseling, employment help, budgeting skills classes, and many other opportunities.

Rides will be provided to the VA as well as to shopping and interviews. Overall the wellness of the veteran is our primary concern.

We at ENPHRONT believe that with our vast, low to no income housing experience and programs for the empowerment of the US Veteran, we can make a difference in the plight of the 200,000 plus United States Homeless Veterans to secure housing within our inner cities and communities.

ENPHRONT has developed relationships with local lenders and developers to provide tenancy with their surplus living arrangements. ENPHRONT will coordinate and manage the housing facilities that will contain all of the amenities of new homes.

ENPHRONT will coordinate the community based linkages to provide, case management education, work-training and empowerment programs to facilitate the transition back to the community

Along with our partners, ENPHRONT will strive to provide supportive programs for our Veterans in the form of treatment plans, education and training. After successful completion of the program(s), the partners and alliances can provide or refer employment for the various skill sets that the Veterans have developed in the training programs.

Our mission is to recycle the image of the U.S. Veteran from within themselves; by providing new housing, linkages to medical facilities, food sources, education, job-training, legal support and safe surroundings in order to get

ENPHRONT Veteran Services is a 501c3 not-for-profit charity that has been providing housing advocacy to those less fortunate since 2001.

In 2007, we began to refer homeless US Veterans to apartments and single family residences and link them to life services within their communities.

During this time we observed there was a need for transitional housing and services for the Veteran population that is chronically homeless, so we created the Jackson Avenue Veterans Complex as a pilot program to see if our model would be successful and create the graduation results we expected of Veterans who needed a hand up to independent living.

ENPHRONT believes there is a formula in this economy that allows for-profit housing and not-for-profit services to partner while producing the best life stabilizing results for Veterans

If you are interested in knowing more about our vision, we would be delighted to hear from you. Please see the Contact Us tab of our website www.Enphront.com for more details.
